ONE LARGE GLOBULE

of even the most digestible fat may be made still more digestible by subdividing it into a number of smaller globules. That's why emulsification facilitates the digestion of fats.

Most emulsions are inefficient, however, because the gastric juice digests the substance which keeps the globules apart and they coalesce in the stomach.

The globules in Hydroleine are suspended in a menstruum, the nature of which guarantees their safe passage through the stomach. That's one of the principal reasons why Hydroleine has maintained its reputation as the most digestible form of the most digestible of all fats—pure Lofoten Cod-Liver Oil. Sold by druggists generally. Write for samples and literature.

THE GROSZMANN SCHOOL

For Exceptional, Nervous and Atypical Children

"WATCHUNG CREST"

Johnston's Drive, Plainfield, N. J.

THE GROSZMANN SCHOOL has been established for the benefit of a small number of exceptional children whose individual needs require physical, mental and moral treatment by experts.

The home of the GROSZMANN SCHOOL is located on the crest of Watchung Mountain, a spur of the Blue Ridge, 500 feet above sea level. It comprises more than twenty-five acres of land (affording ample opportunities for school gardening, outdoor sports, etc.); a large main building, several cottages, stable and outhouses. Its location, so high above tidewater, renders it free from mosquitoes and malaria; the dry, clear air and the invigorating mountain breezes have made the place a health resort of no mean qualities.

The members of the Medical Profession are requested to write for circular giving detailed information.

House for Private Patients

26 WEST 61st STREET

(Formerly 143 West 47th Street)

NEW YORK

Telephone, 2520 Columbus, 2521 Columbus and 2522 Columbus.

Miss A. L. ALSTON, for nearly eight years Superintendent of Mount Sinai Training School for Nurses, opened, September, 1894, a house for the reception of private patients.

Miss ALSTON'S long and thorough experience will insure the best of nursing and general supervision for those who are in her charge. Great attention is paid to the careful and appetizing preparation and serving of the food.

All classes of cases, male and female (including maternity cases), will be received, excepting those suffering from contagious diseases or mental disturbances.

The house will be open to the patients of any reputable physician, and will remain entirely in his charge, no house officer being in attendance.

The house will be open the entire year.

For further particulars, terms, etc., apply at above address.

A registry for nurses is connected with the house, and physicians and families will be furnished with capable nurses.

Obstetrical outfits and surgical dressings will be supplied to surgeons at moderate rates.

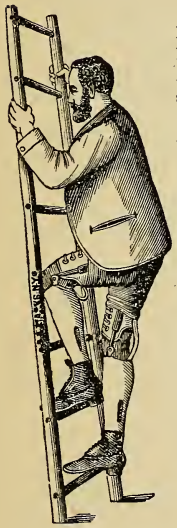
Marks' Artificial Limbs

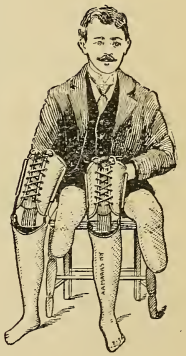
WITH RUBBER HANDS AND FEET



Although a man may lose both of his legs, he is not necessarily helpless. By using artificial legs, with rubber feet attached, he can be restored to usefulness.

THE MOST COMFORTABLE, DURABLE AND NATURAL.

The engraving on the left is from an instantaneous photograph of a man ascending a ladder. He has two artificial legs substituting his natural ones, which were crushed in a railroad accident and amputated. With his rubber feet he can ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can work at a bench and earn a good day's wages. He can walk and mingle with persons without betraying his loss; in fact he is restored to his former self for all practical purposes.



With the old method of complicated ankle joints these results could not be so thoroughly attained.

Over 30,000 in use, scattered in all parts of the world. Many of these have been supplied without the wearers presenting themselves to us, simply by sending measurements on a measuring sheet which anyone can easily fill out.

Received 42 Highest Awards. Purchased by the U. S. Government and many foreign governments. A Manual of Artificial Limbs and illustrated measuring sheet, also catalogues in French, German and Spanish, sent free upon application.

Private Ambulance and Invalid Coach Service

THE CRANE OXYGEN WORKS desire to call the attention of the medical profession to their new, modern and luxurious coaches, ready for service day or night. These Crane Coaches are especially adapted for the moving of patients and invalids from residences, hospitals, sanitariums, steamships, railroad depots, etc. They are the most complete and sumptuous vehicles ever yet constructed for absolute comfort, and are fully equipped with all up-to-date appliances, including medicine chest (prepared for emergencies), ice repositories, electric lights, electric fans, heaters, etc.

There are accommodations for physician and nurse or members of the family. To avoid publicity the coaches are modeled after the style of a superb opera bus, fitted with extra pliable springs, and rubber tired to reduce vibration.

Patented Feb. 18, 1902.

A careful and competent driver is furnished, in addition to two thoroughly trained attendants (not uniformed) to handle the most critical cases.

When patients are taken to or from points at a distance from the city where the coach cannot be sent, one or two skilled attendants can be sent with the bed, which is so arranged that a litter can be formed of it, and the patient transferred from the train or other conveyance to the coach without change or bodily discomfort.

Terms Moderate.

The Home under State authority receives and treats mental diseases. It also receives as voluntary patients those with nervous diseases, selected cases of alcoholic or drug habit.

Amityville is one hour from New York or Brooklyn, via the Long Island Railroad, and is situated on the south side of Long Island fronting the Great South Bay and Atlantic Ocean. The grounds are ample (46 acres) and consist of lawns, gardens and groves through which are walks and drives and shade trees and borders of flowers.

The Sammis Cottage, completed in 1895, offers all the comforts and privileges of a luxurious home. While entirely independent in its operations, it is sufficiently near the Gymnasium, Bath and Main house, that all who wish may enjoy their benefits.

The Bailey Cottage, completed in 1903, is occupied by the Physician-in-Charge of the Home. Two suites have been arranged for suitable cases, who will be under his special care. This cottage is built upon an adjacent tract of thirty acres of land, and it is the intention of the management to make this the center of a group of cottages built for general sanitarium work.

The Stanton Cottage, completed in 1900, is an ideal cottage for one patient, especially if friends desire absolute separation from others, and at a comparatively moderate charge.

THE NORTHEAST CORNER OF THIRD AVENUE AND TENTH STREET

has been known as a drug house. This long established pharmacy has undergone the evolution of more than five decades, always keeping abreast of the times, and is to-day recognized as one of the leading establishments of its kind.

The Prescription Department

has been extended to our adjoining building and is under the management of skilled and competent chemists, isolated from the many disturbing duties of a busy drug store. By devoting their individual attention to the Prescription and Laboratory Work the acme of accuracy is assured, and this firm is justly styled **Prescription Specialists.**

THE ANALYTICAL AND BACTERIOLOGICAL LABORATORIES AND X RAY DEPARTMENT ARE SPECIAL FEATURES.

LEGAL DUTIES OF PHYSICIANS.

1. All physicians practising in the City of New York (including those in public institutions) must be registered with the Department of Health. (San. Code, Section 5.)

(Call at Burial Permit Room, in the Borough Office, between 9 A.M. and 5 P.M., with County Clerk's Certificate, or, if hospital interne, with medical diploma.)

2. An attending physician must furnish a certificate of death within thirty-six hours after the death of the patient (San. Code, Section 180), or, if death be due to a contagious or infectious disease, within twenty-four hours. (San. Code, Section 146.)

3. If a person dies from criminal violence, or by a casualty, or suddenly when in apparent health, or when unattended by a physician, or in prison, or in any suspicious or unusual manner, the case must be referred to a Coroner. (Chap. 410, Section 1773, Laws of 1882.)

4. Physicians must report, within twenty-four hours after making a diagnosis, every case of cholera, yellow fever, smallpox, chickenpox, diphtheria (including membranous croup), typhus fever, typhoid fever, relapsing fever, scarlet fever or measles occurring in their practice; and, within one week, every case of pulmonary tuberculosis. (San. Code, Sections 5, 145 and 153.)

5. Physicians must report births occurring in their practice within five days after the event. (San. Code, Section 180.)

6. Every physician must preserve a duplicate record of every death and birth so reported. (San. Code, Section 179.)

N. B.—Reports must be written on blank forms provided by the Department of Health. Any violation of the Sanitary Code is a misdemeanor (Section 575, Chap. 1773, Law of 1882.)

THE CERTIFICATION OF MILK BY THE COMMISSION OF THE MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

For the past four years the County Medical Society, and more recently, the Rockefeller Institute for Medical Research and the Research Laboratory of the Department of Health, have been carrying on a co-operation work which had for its purpose the betterment of much of New York City's milk supply. The following is taken from the introduction to the Commission's circulars on "Certified" and "Inspected" milk.

"The Commission appointed by the Medical Society of the County of New York to aid in improving the milk supply of New York City invites the co-operation of the milk dealers and farmers in attaining that end. The sale of pure milk is of advantage to those furnishing it, as well as to those who use it. The Commission has undertaken to assist both consumer and producer by fixing a standard of cleanliness and quality to which it can certify, and by giving information concerning the measures needful for obtaining that degree of purity.

"In order that dealers who incur the expense and take the precautions necessary to furnish a truly clean and wholesome milk may have some suitable means of bringing these facts before the public, the Commission offers them the right to use caps on their milk jars stamped with the words 'Certified by the Commission of the Medical Society of the County of New York,' or 'Inspected by.' The dealers are given the right to use these certificates when their milk is obtained under the conditions required by the Commission and conforms to its standard."

The required conditions are then given in detail, and the circulars containing them can be obtained from the Secretary of the Commission or from the Research Laboratory of the Department of Health.

EXAMINATION OF THE MILK AND DAIRY INSPECTION.

In order that the dealers and the Commission may be kept informed of the character of the milk, specimens taken at random from the day's supply must be sent weekly to the Research Laboratory of the Health Department, where examinations will be made by experts for the Commission, the Health Department having given the use of its laboratories for this purpose.

The Commission reserves to itself the right to make inspections of certified farms at any time and to take specimens of milk for examination. It also reserves the right to change its standards in any reasonable manner upon due notice being given to the dealers.

Since January 1st, 1902, the expenses incurred in making

the regular milk examinations and inspections have been borne by the dealers. For the first nine months all the expenses incurred in this education of the farmers and dealers and in the routine inspections were borne by the Rockefeller Institute for Medical Research. The Institute advanced for this purpose $1,500.00.

Two certificates are granted by the Commission. The first has the word "Certified" stamped upon it. Milk with this certificate is inspected at the farms every three or four weeks and tested at the laboratory every week. It is supplied only in sealed bottles. All the cattle supplying this milk have passed the tuberculin test. It is supposed to be produced under conditions as perfect as it is possible to obtain.

The second certificate carries the word "Inspected." The farms where this milk is produced are inspected every six to eight weeks and the milk examined at the laboratory every three to four weeks.

Certain requirements of "certified" milk, such as metal caps for the bottles and sterilized gowns for the milkers, are omitted for this milk. It is, however, believed by the Commission to be a wholesome and safe milk. As it will be retailed at the usual prices, it is hoped that every one will insist on his dealer supplying it to him.

The Milk Commision has in its employ a trained inspector and has the use, free of charge, of the laboratories of the Department of Health. It can extend its work to any extent desirable. It remains for the public to decide whether or not it wishes to obtain pure milk.

The list of dealers who have certified milk with our certificate from July 1, 1905, is given below:

The dealers who have bottled certified milk in New York City are:

Briarcliff Farms.
Thorndale Farms Co.
Locust Farms Co.
Sheffield Farms—Slawson—Decker Co.
Daheim Stock Farm.
Richfield Dairy.
Mr. Luke Blake, Hazelwood Dairy
Smith's Farm Dairy.
Clover Farms Co.

The dealers who have bottled certified milk outside of New York City are:

Mr. S. L. Stewart, Brookside Dairy, Newburgh.
Woodlawn Dairy, Englewood, N. J.
Daheim Stock Farm, Yonkers.

The dealers who have certified milk in cans are:

Mr. M. L. Sanford.
Sanford Dairy Co.

The dealers who have bottled Inspected milk are:

Clover Farms Co.

The dealers who have inspected milk in cans are:

Locust Farms Co.
Sheffield Farms—Slawson—Decker Co.

EXTRACTS FROM THE BY-LAWS OF THE MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

"The annual meeting of the Society shall be held on the fourth Monday in October.

"Stated meetings shall be held on the fourth Monday of every month, except in the months of June, July, August and October.

"Nominations for the officers, censors and delegates, to be elected at the annual meeting, shall be made at the stated meeting in September.

"Members whose dues are unpaid shall not be candidates for any official position in the Society, nor shall they be entitled to vote.

"Every candidate, before signing the By-Laws, shall be required to pay an initiation fee of two dollars, together with the current dues within three months from the date of his election.

"The Comitia Minora shall recommend no applicant for admission to membership unless he be a graduate from a medical college in good standing or a licentiate of a regular unsectarian State or County Medical Society of this or any other State; or, if his diploma or license be of sectarian character, unless the applicant declares in writing his or her abnegation of sectarian principles and practice.

"Members whose dues or assessments are unpaid for one or more years, or who are under suspension, shall not be eligible for nomination or election or appointment for any official position in the Society, nor shall they be entitled to vote *or to receive the notices or publications of the Society.*"

"Any member three years in arrears of dues shall thereupon cease to be a member of the Society."

"I am constant as the northern star,
Of whose transfix'd and resting quality
There is no fellow in the firmament."
—*Julius Cæsar*

THERE are few useful products that have been more numerously and less successfully imitated than

"BRUSH'S KUMYSS."

THE same word, often the same lettering as directions on the label, the same colored ink, and sometimes a device that imitates closely the trade-mark, may cover a base imitation.

Only the word "BRUSH" will make your order definite.

Infant Feeding.

EXCEPT that derived from the *healthy* mother's breast, the best food for an infant is the milk of *healthy* cows, if these animals receive proper food and care.

EVERY common-sense detail that it is possible to observe is practiced in Dr. Brush's milk dairy. Nothing but the whole grist of the best grain—no refuse of any description—is used as food. All the care and attention to the cows is given with an intelligent desire to produce good milk.

IT is delivered in New York City at 15 cents per quart; orders addressed to me will receive prompt attention.

When **You** Ache—*Anywhere*

take two

SAL-CODEIA BELL

Salacetin gr. 5 **Codeine Sulphate gr. ¼**

tablets, dissolved in hot water—and remember the effect when your patient aches—anywhere.

"Trial is Proof."

On prescription at druggists, or one dollar per hundred by mail to physicians and druggists only.

(OVER)

SAL-CODEIA BELL

Salacetin gr. 5 **Codeine Sulphate gr. ¼**

Salacetin is a combination, with heat, of salicylic and glacial acetic acids with purified phenylamine. We refine our own Codeine. It neither checks secretions nor induces a habit. "Trial is Proof." SAL-CODEIA BELL relieves Rheumatic, Neuralgic, Respiratory and Abdominal Pain better than morphia; eliminates uric acid and checks fermentation better than salicylates, and no objectionable results follow its use.

"Trial is Proof."

Prescribe two tablets dissolved in hot water, followed by one or two t. i. d. as necessary.

EXAMINATIONS FOR LICENSE TO PRACTISE MEDICINE.

Laws of New York, 1893, ch. 661; §145 admission to examination, as amended to aug. 1, 1904.

The regents shall admit to examination any candidate who pays a fee of $25 and submits satisfactory evidence, verified by oath, if required, that he

1. Is more than 21 years of age;
2. Is of good moral character;
3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State;
4. Has studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of at least six months each, in four different calendar years, in a medical school registered as maintaining at the time a satisfactory standard. New York medical schools and New York medical students shall not

be discriminated against by the registration of any medical school out of the State, whose minimum graduation standard is less than that fixed by statute for New York medical schools. The regents may, in their discretion, accept as the equivalent for any part of the third and fourth requirement, evidence of five or more years' reputable practice, provided that such substitution be specified in the license. The regents may also in their discretion admit conditionally to the examination in anatomy, physiology and hygiene, and chemistry, applicants 19 years of age, certified as having studied medicine not less than two full years of at least nine months each, including two satisfactory courses of at least six months each in two different calendar years, in a medical school registered as maintaining at the time a satisfactory standard, provided that such applicants meet the second and third requirements.

5. Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practise medicine in some foreign country, unless admitted conditionally to the examinations as specified above, in which case all qualifications, including the full period of study, the medical degree and the final examinations in surgery, obstetrics, pathology and diagnosis, and therapeutics, including practice and materia medica, must be met. The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the regents that before beginning the first annual medical course counted toward the degree unless matriculated conditionally as hereinafter specified (three years before the date of the degree), he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the regents as fully equivalent; or held a regents' medical student certificate granted before this act took effect; or had passed regents' examinations as hereinafter provided. A medical school may matriculate conditionally a student deficient in not more than one year's academic work or 12 counts of the preliminary education requirement, provided the name and deficiency of each student so matriculated be filed at the regents' office within three months after matriculation, and that the deficiency be made up before the student begins the second annual medical course counted toward the degree. Students who had matriculated in a New York medical school before June 5, 1890, and students who had matriculated in a New York medical school before May 13, 1895, as having entered before June 5, 1890, on the prescribed three years' study of medicine, shall be exempt from this preliminary education requirement.

A medical student certificate may be earned without notice to the regents of the conditional matriculation either before the student

begins the second annual medical course counted toward the degree or two years before the date of the degree for matriculants in any registered medical school in the four cases following:

1. For matriculants prior to May 9, 1893, for any 20 counts, allowing 10 for the preliminaries, not including reading and writing;

2. For matriculants prior to May 13, 1895, for arithmetic, elementary English, geography, spelling, United States history, English composition and physics, or any 50 counts, allowing 14 for the preliminaries;

3. For matriculants prior to January 1, 1896, for any 12 academic counts;

4. For matriculants prior to January 1, 1897, for any 24 academic counts;

But all matriculants after January 1, 1897, must secure 48 academic counts, or their full equivalent, before beginning the first annual medical course counted toward the degree, unless admitted conditionally, as hereinbefore specified, when the deficiency must be made up before the student begins the second annual medical course counted toward the degree.

This act took effect March 21, 1896, *except that the increase in the required course of Medical study from three to four years did not take effect till January* 1, 1898, *and did not apply to students who matriculate before that date and receive the degree of M. D. before January* 1, 1902.

Notes on the Preliminary Education Requirement.

The regents will accept as fully equivalent to the required academic course any one of the following:

(*a*) A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university, registered by the regents as maintaining a satisfactory standard.

(*b*) A certificate of having passed in a registered institution examinations equivalent to the full collegiate course of the freshman year or to a completed academic course.

(*c*) A regents' diploma.

(*d*) A certificate of graduation from any registered gymnasium in Germany, Austria or Russia.

(*e*) A certificate of the successful completion of a course of five years in a registered Italian *ginnasio* and three years in a *liceo*.

(*f*) The bachelor's degree in arts or science, or substantial equivalent from any registered institution in France or Spain.

(*g*) Any credential from a registered institution or from the government in any foreign State or country which represents the completion of a course of study equivalent to graduation from a registered New York high school or academy.

Order of Studies.—There is no restriction in the order in which studies may be taken.

Time Limit.—There is no limit of time, but all credentials issued by the University are good till cancelled for cause.

Credentials.—From February 1, 1902, two series of medical student certificates are issued, those for work in registered colleges, and those for work in registered secondary schools. The latter enumerate the subjects and their value and a form (E) is essential for equating a student's record in lieu of examination.

Notes on the Professional Requirements.

1. Seventy-five per cent. of correct answers is required in all subjects.

2. All examinations must be conducted in the English language.

3. Medical preparatory courses, as such courses are now taught in various scientific schools and colleges, cannot be accepted for one year of the medical study required by the law.

4. In 1902, the medical law was amended, giving the regents power to admit conditionally to the licensing examinations in anatomy, physiology and hygiene and chemistry, applicants certified as having studied medicine not less than two full years of at least nine months each, in two different calendar years, in a medical school registered as maintaining at the time a satisfactory standard, provided that such applicants are more than 19 years of age, of good moral character, have the requisite preliminary education and pay the fee of $25; the final examinations in surgery, obstetrics, pathology and diagnosis and therapeutics, including practice and materia medica, to be made after having finished the full period of study and having received the medical degree.

As the result of a conference held May 13, 1901, by representatives of the medical interests of the State, the regents put this plan in operation, beginning with the September, 1901, medical licensing examination.

Powers and Duties of County Clerks in Registering Licenses to Practise Medicine in New York State.

The laws relating to registration of physicians by county clerks were repealed May 9, 1893, when the new law took effect. The law forbids the registration of any authority to practise medicine except a license or diploma issued or indorsed as a license under seal by the University of the State of New York, or (in case of removal to another county of a physician already licensed) a certificate clearly showing that the original registration was of an authority issued or indorsed under seal by the regents.

To provide against penalties for illegal registration, all other cases should be referred to the University of the State of New York, the only authority by which licenses can be issued after September 1, 1891.

NEW YORK STATE DEPARTMENT OF HEALTH.

OFFICE, CAPITOL BUILDING, ALBANY.

Organized under Chapter 29, Laws of 1901.

The Commissioner of Health shall take cognizance of the interests of health and life of the people of the State, and all matters pertaining thereto. He shall make inquiries in respect to the cause of disease, especially epidemics, and investigate the sources of mortality and the effect of localities, employments, and other conditions upon the public health. He shall have general supervision of the State system of registration of births, marriages, and deaths, and prevalent diseases, and regulate the transfer of dead bodies beyond the limits of counties in which deaths occur.

The Commissioner of Health has cognizance of the interests of the public health as it relates to the sale of food, drugs, spirituous, fermented and malt liquors, and adulterations thereof.

The Governor may require the Commissioner of Health to examine into nuisances, and may declare to be public nuisances, matters and things certified to him to be such.

THE NEW YORK SOCIETY

FOR THE

RELIEF OF WIDOWS AND ORPHANS

OF MEDICAL MEN.

Instituted 1842. Incorporated April 18, 1843.

Annual members pay an initiation fee of $25, and $10 dues in semi-annual payments. Any person paying $100 at one time becomes a member for life, and $250, and upward, a benefactor. Members of the regular medical profession, residing in New York, Kings, Queens, Richmond and Westchester Counties, who are in good health, are eligible for election as members.

Persons Entitled to Relief: 1. The widow of a member whose income does not exceed eight hundred dollars per annum. If said widow shall marry again, her annuity shall cease. 2. Children of a member, males under sixteen and females under eighteen years of age and unmarried; and where the mother's income is not more than two hundred dollars per annum for each child respectively, in addition to the eight hundred dollars above mentioned. 3. Orphans of a member, males under sixteen and females under eighteen years of age and unmarried, whose income does not exceed two hundred dollars per annum. Every child, on arriving at the age when the annuity ceases, shall receive the sum of one hundred dollars as an outfit. In cases of prolonged ill health, or other extraordinary circumstances, the assistance granted to the surviving children of members may be extended beyond the limits of sixteen and eighteen years respectively. An aged mother, father or sister dependent on a member may receive assistance after a member's death. The marriage of the widow shall not invalidate the claims of the children to assistance from the Society. No one shall be entitled to claim assistance from the Society unless the person, by virtue of whose membership the claim is made, has been a member for the two years previous to his death.

Every widow of a member shall be entitled to four hundred dollars per annum, but for every ten dollars, or multiple of ten dollars, of income, an amount fully equal to fifty per cent. of said income shall be deducted from the annuity. Every child entitled to relief shall receive one hundred dollars per annum subject to the same deduction of fifty per cent. of income as above. When there are full orphans, then each case shall be specially investigated by the Standing Committee, and the amount fixed for every year, according to the circumstances of the case.

Total assets of the Society, October, 1904, $265,376.35.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the day of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

CONTAGIOUS DISEASES.

REGULATIONS OF THE BOARD OF HEALTH.

The following is an extract from the Manual of the Board of Education in reference to contagious diseases in public schools:

SECTION 95. 1. Whenever the Principal or Teacher in charge of a school ascertains that a case of contagious disease has occurred in a family in which a child or children attending school lives or live, such child or children shall be immediately excluded from school; and a Principal or Teacher shall also exclude from school any child or children when notified by the Board of Health that the protection of public health requires it; and said child or children shall not be permitted to attend school until a certificate of the Board of Health is presented, stating that there is at the time no contagious disease existing in the family, and that it is safe for the child or children to attend school.

Domestic Postage.

First Class.—Letters and all written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, two cents per ounce or fraction thereof. A "Special Delivery" ten-cent stamp, when attached to a letter in addition to the lawful postage, shall entitle the letter to immediate delivery at, or within one mile of any post-office. Postal cards, one cent each.

Second Class.—All regular newspapers, magazines, and other periodicals issued at intervals not exceeding three months; the postage is one cent for each four ounces, payable by postage stamps.

Third Class.—Embraces printed books, pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hektograph or similar process, or by electric pen, are rated as third class. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight. The rate of postage on mail matter of the third class is one cent for each two ounces or fraction thereof.

Fourth Class.—All mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily taken from the wrapper and examined. Rate, one cent per ounce or fraction thereof, except seeds, roots, cuttings, bulbs, plants, and scions, which are one cent per two ounces. Limit of weight, four pounds. Full prepayment compulsory. Liquids, and other like injurious matter, not admitted, except under conditions which may be learned at any post-office.

Matter not addressed to a post-office cannot be forwarded. Write or print your name and address, and the contents, if a package, upon the upper left hand corner of all mail matter. This will insure its immediate return to you for correction, if improperly addressed or insufficiently paid; and if it is not called for at destination it can be returned to you without going to the Dead Letter Office. If a letter, it will be returned free. Register all valuable letters and packages. Registry fee, eight cents, which, with the postage, must be fully prepaid.

Fees Charged for Money Orders.—For Money Orders in denominations of $100 or less, the following fees are charged in addition to revenue stamp: For Orders for sums not exceeding $2.50, 3c.; $2.50 to $5, 5c.; $5 to $10, 8c.; $10 to $20, 10c.; $20 to $30, 12c.; $30 to $40, 15c.; $40 to $50, 18c.; $50 to $60, 20c.; $60 to $75, 25c.; $75 to $100, 30c.

Foreign Postage.

To all Foreign Countries (except Canada, Cuba, Mexico, and Philippine Islands):

On Letters, five cents for each half ounce or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters.

On newspapers, books, pamphlets, photographs, sheet music, maps, engravings, and similar printed matter, one cent for each two ounces or fraction thereof. Limit 4 lbs. 6 oz.

To Canada (including Nova Scotia, New Brunswick, Manitoba, and Prince Edward Island): Letters, two cents for each ounce or fraction thereof; Books, Circulars, and similar printed matter, one cent for each two ounces or fraction thereof; Second Class Matter, same as in the United States; Samples, one cent per two ounces (must be paid at least two cents): Merchandise, one cent per ounce. Package must not exceed 4 lbs. 6 ozs. in weight—prepayment compulsory.

To Mexico: Letters, Postal Cards, and printed matter same rates as in the United States. Samples one cent per two ounces. Merchandise other than samples can only be sent by Parcel Post.

Limits of Size and Weight: Packages of samples of merchandise to foreign countries must not exceed 12 ozs., nor measure more than 12 in. in length, 8 in breadth, and 4 in depth; and packages of printed matter must not exceed 4 lbs. 6 ozs.

STAMMERING

AS MUCH of the speech apparatus is under control of the will, considerable may be done for those who suffer from speech defects by a careful training of the respiratory, vocal and articulating organs. This training is given under the direction of a physician of many years' experience. The profession may rely upon having the best treatment known for those who apply to them. Such remedies for nervous and physical conditions as directed by the patient's physician may also be used. The location opposite Bryant Park is very central and accessible. A pamphlet, giving outline of treatment and authentic references, may be had upon application, or it will be mailed to any address mentioned. Sample copies of VOICE TOPICS, a quarterly journal for the consideration of speech defects, may also be had for the asking.

BROMIDIA IODIA PAPINE

BATTLE & CO., CHEMISTS CORPORATION

ST. LOUIS, MO., U. S. A.

BOVININE in ANÆMIA

BOVININE overcomes *Anæmia* logically, rationally and radically, for several substantial reasons:

1. Because it supplies the starving organism with the requisites for immediate reparation.

2. Because it needs no preparation or transformation at the hands of the vital machinery before it can be assimilated and converted into living force.

3. Because *Anæmia* results from a form of malnutrition caused by the absolute inertia of the digestive function.

BOVININE comes to the rescue by supplying a vitalized and perfectly compound pabulum that calls for no chemico-vital effort whatever.

Apply the crucial test—clinical use—at our expense, and convince yourself that our claims are neither extravagant nor exaggerated, but are strictly based on science.

IN ALL FORMS OF ANEMIA

HEMOQUININE

Has proved Its Efficiency and Reliability

It is not merely a readily assimilable chalybeate, but a powerful tonic and alterative, improving the quality of the blood, exerting a beneficial action upon the digestive tract, the liver, and spleen, and an invigorating effect upon the nervous system.

Its range of applicability embraces not only cases of simple anemia and chlorosis, but anemic conditions resulting from chronic malaria and other debilitating diseases. The agreeable character of Hemoquinine renders it particularly suitable for these chronic disorders.

Dose: One dessertspoonful three times daily after meals. May be taken in water, milk or wine.

URIFORM

Sterilizes the Urine
Arrests Tenesmus
Relieves Pain
Allays Inflammation

In Subacute and Chronic Affections of the Urinary Tract, especially Cystitis, Posterior Urethritis, Prostatitis and Pyelitis, it has been found a very efficient, agreeable, and well-tolerated combination of the most reliable urogenital remedies with hexamethylentetramine.

Dose: One to two teaspoonfulls three times daily.

Exalted Oxygen Products

BIOGEN

(MgO_2)—Magnesium Dioxide

BIOGEN is available in powder and tablet form which may be safely *administered internally* in maximum doses.

BIOGEN dissolves and parts with its oxygen promptly in the acid media of the stomach. The oxygen being in nascent state, its absorption is a physiological fact.

BIOGEN liberates vitalized oxygen without irritant effects. The Magnesium constituent by maintaining the normal alkalinity of the blood also insures the absorption of the oxygen.

BIOGEN is indicated in all disorders due to suboxidation. It forms a rational basis of treatment in Anemia, Asthma, Auto-Intoxication, Rheumatism, Gout, Neurasthenia, Tuberculosis, Obesity, Dyspnea, Narcosis. It invariably relieves the oxygen famine of the organism.

BIOGEN is permanent, palatable, harmless and convenient. Its action is prompt, positive and gratifying.

DERMOGEN (ZnO_2)

A Stable Zinc Dioxide

DERMOGEN (ZnO_2) yields its abundance of oxygen in nascent state for direct and prolonged application to morbid affections and abrasions of the skin. In promoting healthy granulation and healing by first intention, it surpasses any agent yet discovered.

DERMOGEN is odorless and non-irritant, does not injure the integrity of the most delicate living tissue. Applied as a powder or in the form of an ointment to venereal sores, foul or sluggish wounds, and purulent eczematous surfaces, it is unsurpassed as an antiseptic, anti-zymotic, exsiccant and disinfectant.

The investigations of therapeutists of world-wide celebrity have established the value of these remarkable oxygen liberating compounds. Working samples of these products, with literature and clinical data, sent upon receipt of application.

PHENALGIN

5-GRAIN TABLETS OF PHENALGIN WITHOUT ANY DISTINCTIVE MARK

We are now manufacturing five-grain tablets of Phenalgin put up in one-ounce bottles only without any distinctive mark or design. Our reasons for this innovation upon the usual custom followed by manufacturers are :

FIRST—We have induced to add 5-gr. tablets to our list, because of greater convenience in administering the five-grain adult dose, as many physicians prefer to prescribe tablets without any distinctive mark ; and, because we desire to conserve the interests of our friends of the medical profession in every practical manner.

SECOND—We do not believe good and responsible druggists will substitute any other drug for Phenalgin, when it is prescribed by the physician. Therefore, in adding these tablets to our list, we have omitted the distinctive mark "E," because we have reason to believe in the professional honesty of dispensing pharmacists.

THIRD—Because, Phenalgin is a compound of peculiar character which cannot be extemporaneously made into tablets from the powdered drug, without seriously changing and impairing its medicinal qualities ; consequently there is a demand for a five-grain tablet made by the manufacturer of Phenalgin.

Our process of manufacturing tablets is coincident with the manufacture of Phenalgin, and is the result of a long series of careful experiments by which we are able to produce tablets of Phenalgin in a friable condition, without losing any of its volatile constituents, or undergoing chemical changes from heat or moisture ; thus retaining the full therapeutic value of the drug unimpaired.

ETNA CHEMICAL CO., 313 West St., New York.

PHENALGIN is sold only in bottles containing one ounce of Phenalgin powdered, or 2½-grain tablets, or 5-grain tablets, or 5-grain pink top capsules.

ANTISEPSIS OF URINARY TRACT

HELMITOL — PROTARGOL

Internally. — **Externally.**

In all affections of the urethra, prostate and bladder Helmitol has proved superior to other formaldehyde derivatives in efficiency, safety and freedom from irritation, while Protargol is considered by many authorities as the most powerful and least irritating gonocide.

THE MOST RELIABLE DIURETICS

ACET-THEOCIN-SODIUM

Soluble Theocin.

AGURIN

Acet-theobromine-sodium.

In the dropsy of cardiac diseases and chronic renal affections Theocin has been found the promptest and most efficient diuretic. Agurin, though less powerful, is more persistent in its action and may be administered to maintain the diuresis which has been initiated with Theocin.

MODERN ANTIRHEUMATIC MEDICATION

MESOTAN — ASPIRIN

Externally. — **Internally.**

Unlike liniments and other applications of doubtful value, Mesotan produces a direct curative action owing to its ready absorption with the liberation of salicylic acid in the diseased structures. It thus supplements the use of Aspirin, which is acknowledged to be the most efficient and best tolerated of the salicylates.
